Re: Letter of Recommendation

Dear Mark:

This letter is certainly long overdue; however I did want to tell you in writing what a great job you and your associates are doing on behalf of our company. Our partnership has been advantageous for both of our firms.

We appreciate your expertise on the wide variety of projects we have designed and constructed together. Your openness to our direction and your understanding of the code requirements, product and systems has helped us provide greater value for our clients and owners. Paragon has always been concerned about the important deadlines on the projects and has helped us complete our projects in a timely manner. We also value your willingness to go the extra mile with us on value engineering alternatives enabling us to meet the owner's budget goals without sacrificing quality or their intended use of the building. Paragon Engineering is a team player and we thank you for your support on a long list of projects, most recently SDA Hope Channel and Waters Edge Community Center just to name a few.

We are excited about the future and the opportunities for our organizations to work together. I trust the best is yet to come and we look forward to working with Paragon Engineering Services to that end.

Sincerely,
CONWAGO ENTERPRISES, INC.

Dale W. Forney
Director of Business and Project Development
